

:: Beam 3 el. 5 pasm - SWR

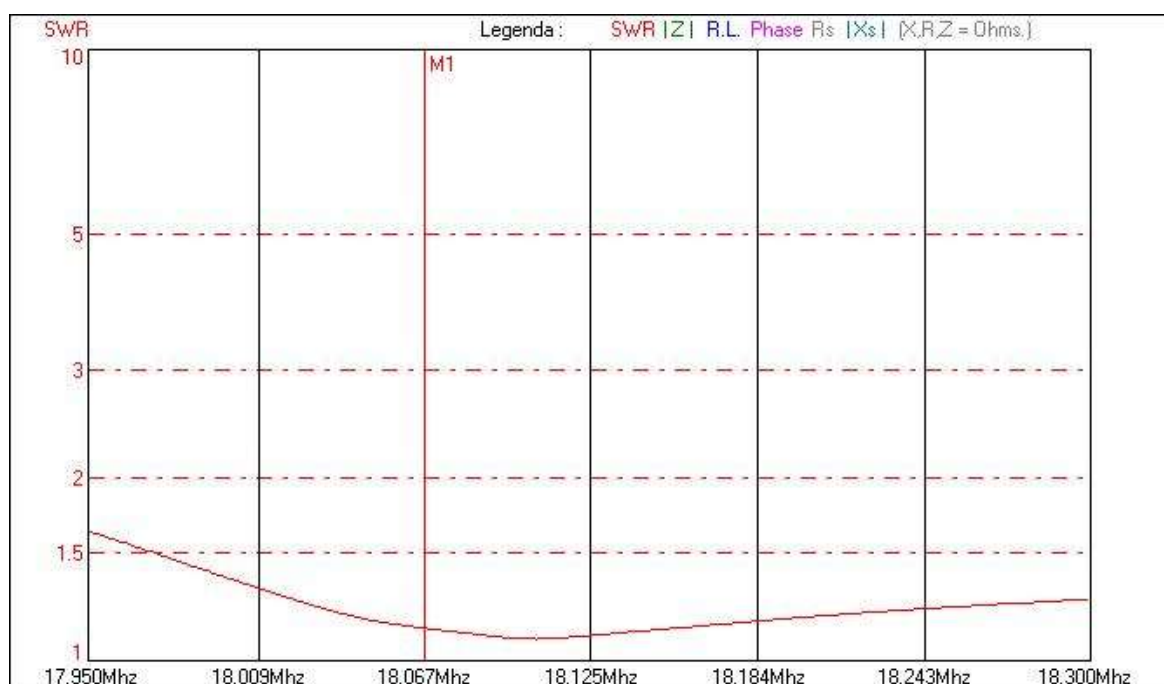

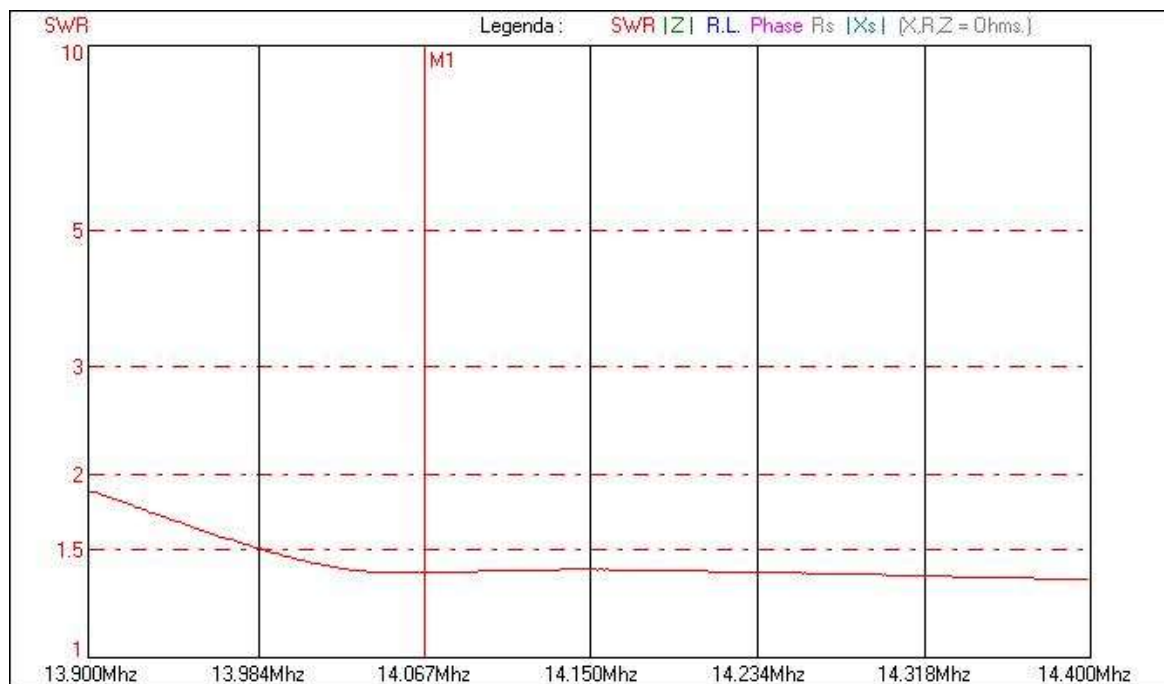

Artykuł dodany przez: **SP7GXP** (2012-09-05 10:12:32)

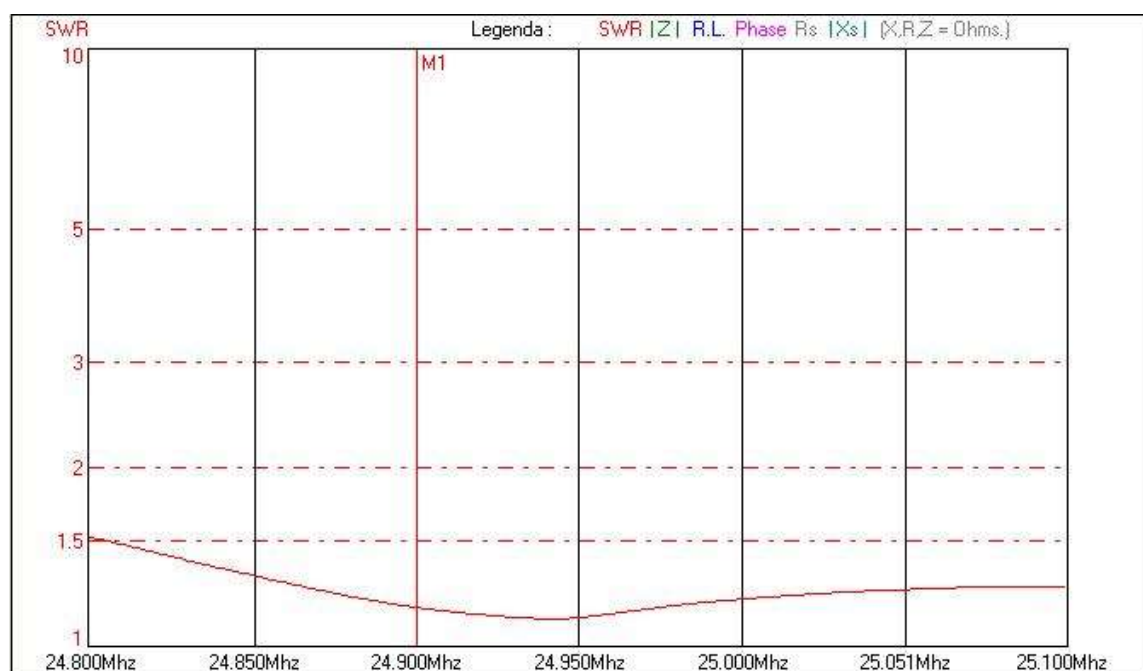

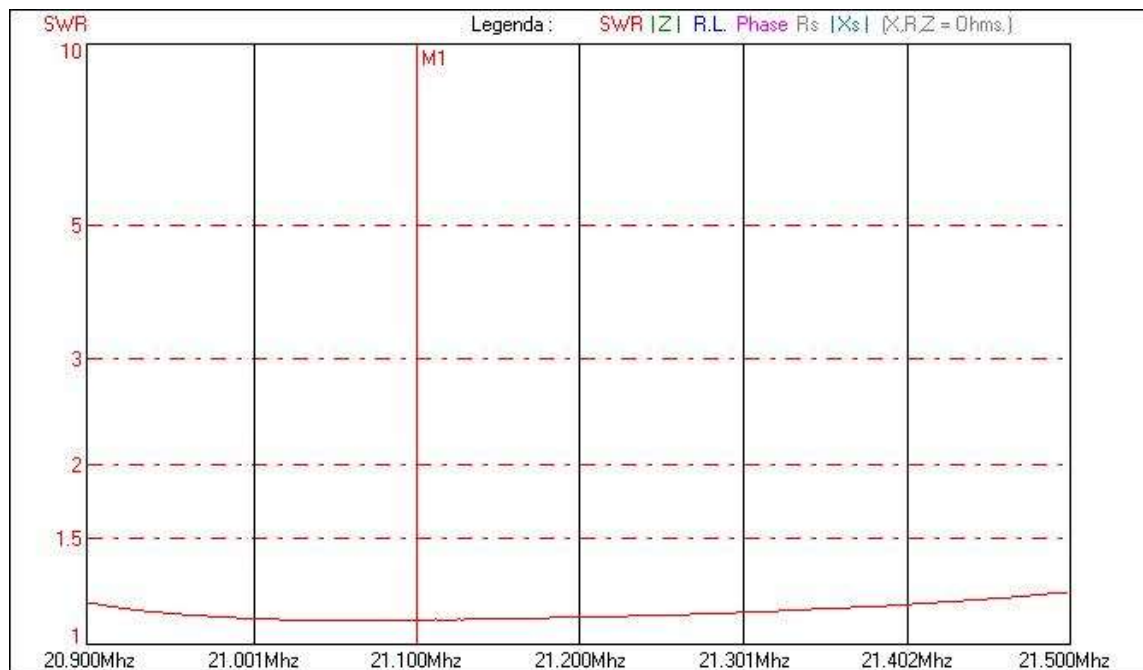

Wyniki pomiaru SWR na różnych wysokościach w pogodny dzień, **gleba sucha**.

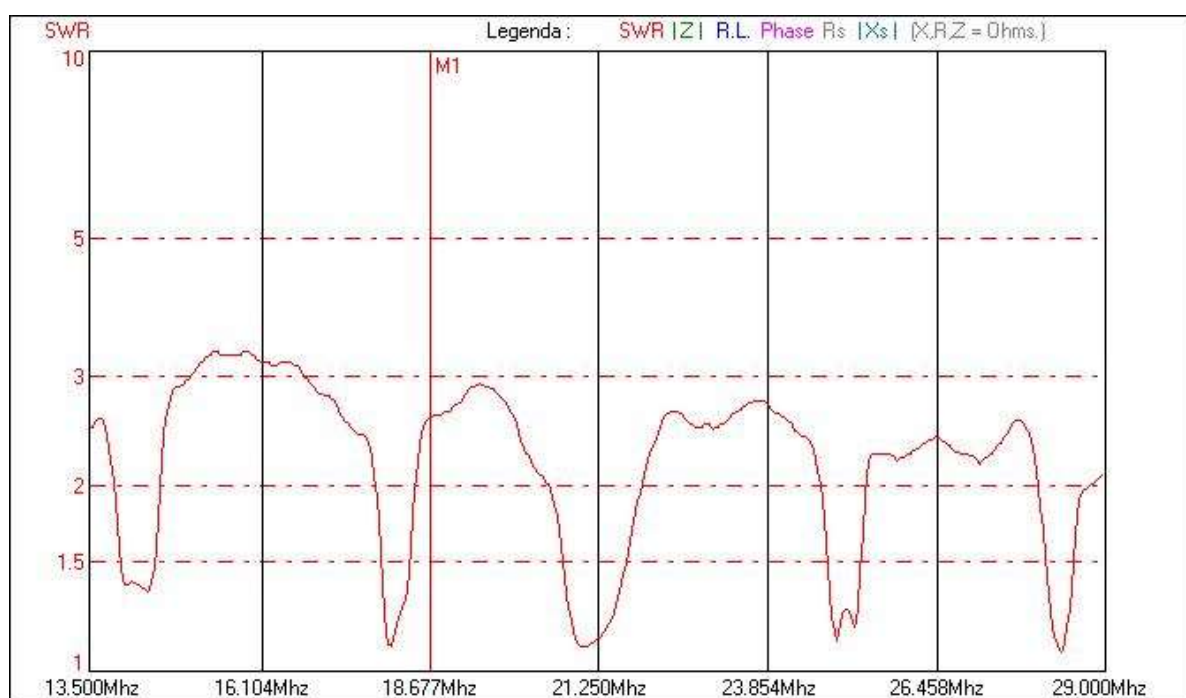

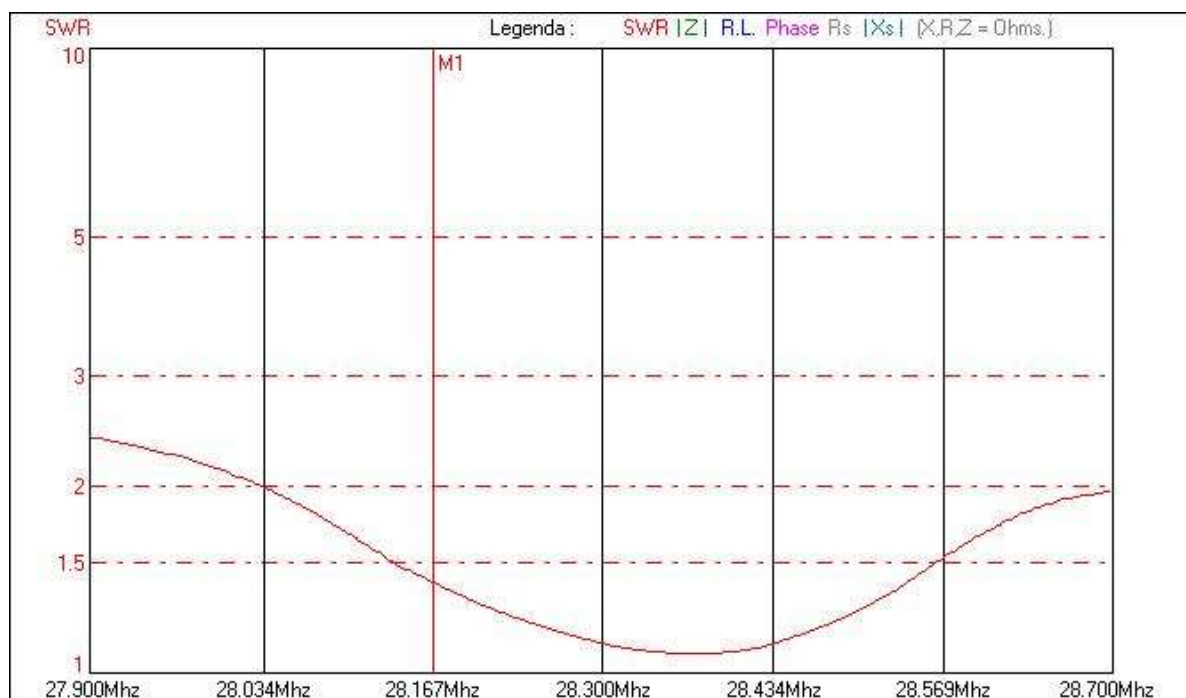

Uwaga, przy glebie mokrej SWR będzie zupełnie inny!

W przypadku dachu przy niskich wysokościach, dach nie może być z blachy!

Wysokość 2,5 metra:

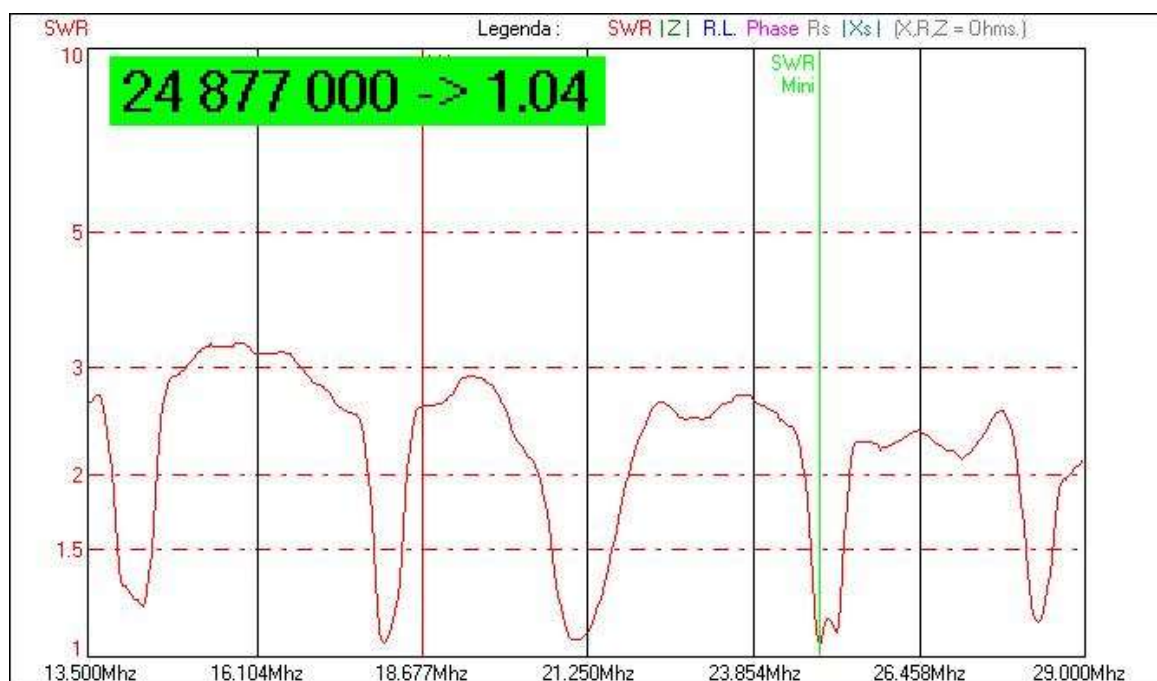

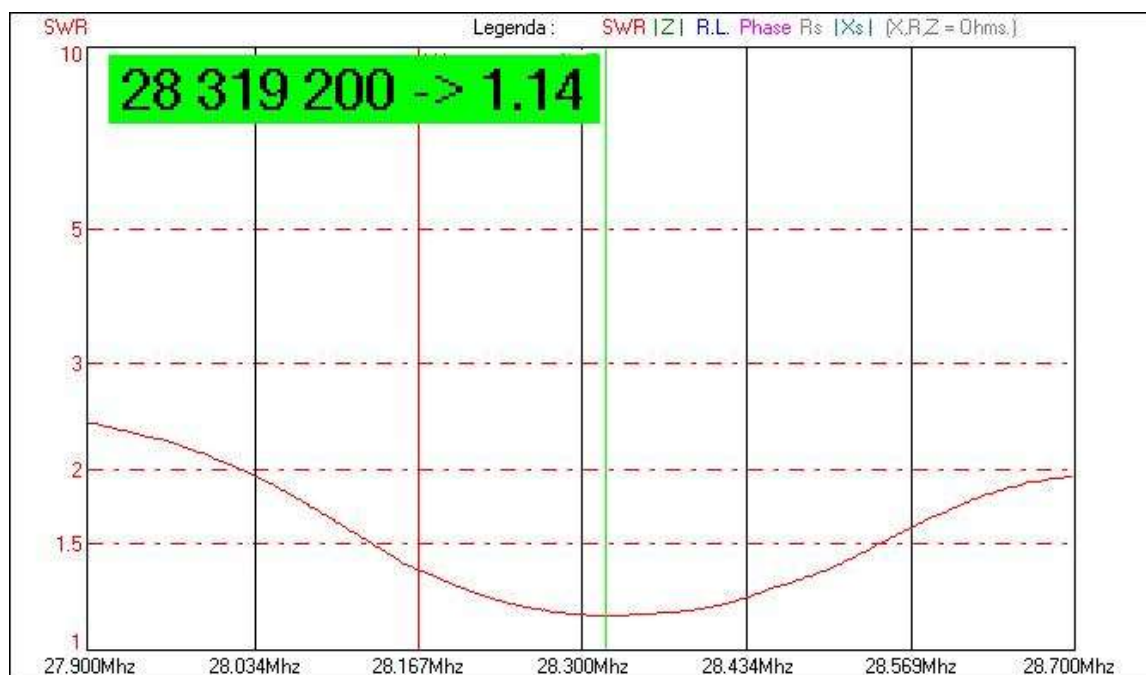

Wysokość 4 metry:

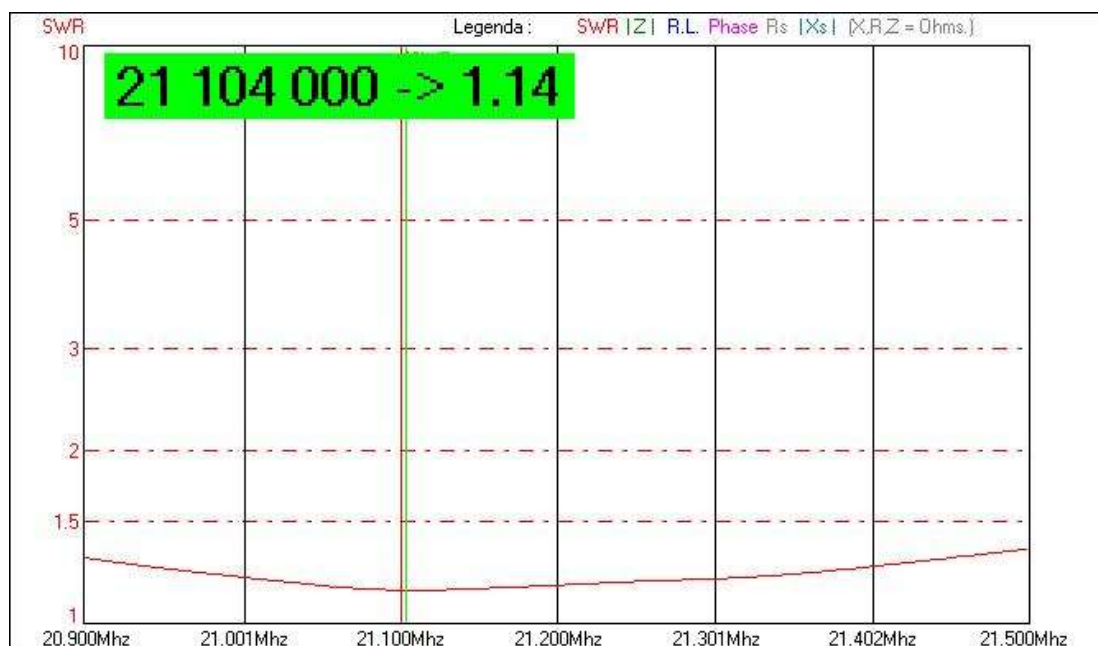

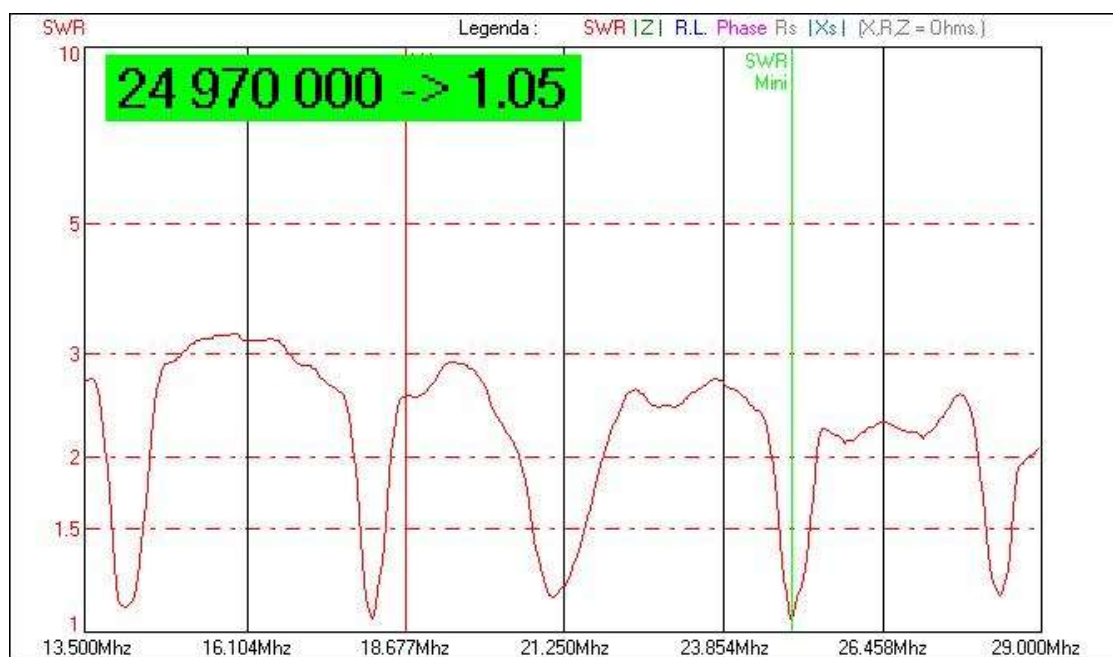

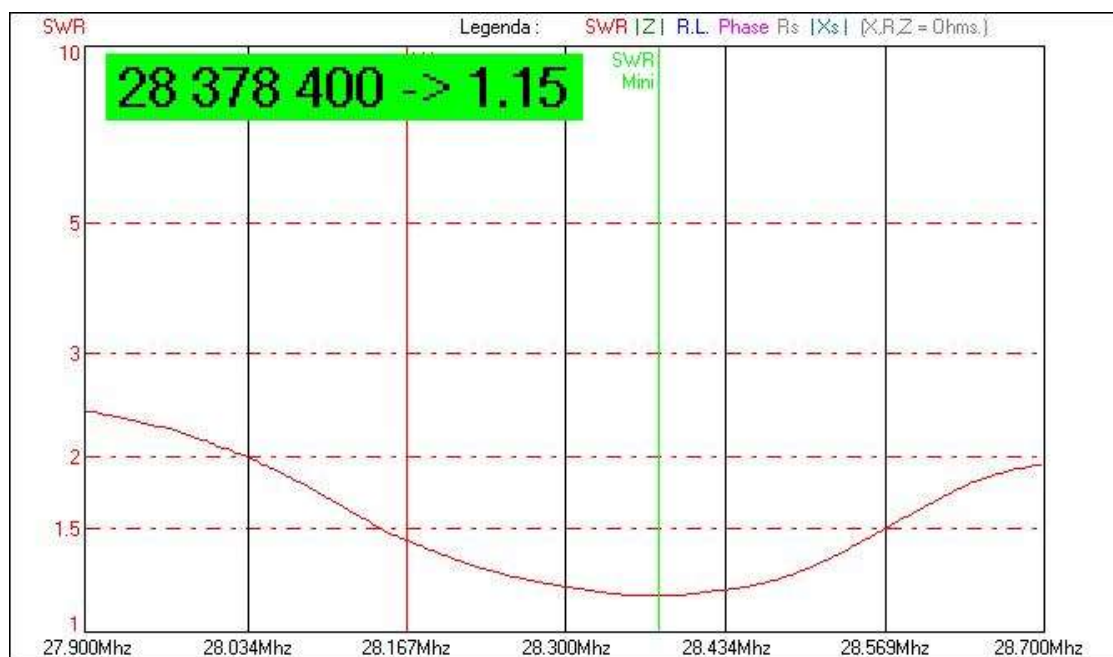

Wysokość 7 metrów:

Wysokość 12 metrów:
